Hunter Chase Velasquez

Video Editor & Shooter | Multidisciplinary Engineer

velasquezhunter@gmail.com | (330) 321-5666 | Colorado | huntervelasquez.com | linkedin.com/in/huntervelasquez

Lead editor and shooter for a 744K-subscriber YouTube channel; edited and filmed its last eight releases (3.4M+ views). Assistant editor on Crown Jewels, a feature documentary made with REI Co-op and Patagonia. I've done paid engineering work since my first year of college, so I plan every shoot like a product build: scoped, scheduled, and ready for whatever breaks on location.

EXPERIENCE

Louis Weisz (YouTube, 744K subscribers) *Lead Editor & Production Engineer* — Boulder, CO | Fall 2025 – Present

Collaborator on builds and video production since 2022

- **Edit every release end to end**—story structure, cut, sound, color, delivery. The last 8 videos total **3.4M+ views**, led by "I Built a Micro Camper for my E-Bike!" (2.2M).
- Film shop builds and multi-day field shoots: snowmobile trips into the Colorado backcountry, off-road e-bike expeditions, and a 24-hour stealth-camping stunt.
- Sped up post-production with a first-pass culling method, self-made automated stabilization protocols, and multi-source audio/video sync.
- Moving the channel's style from heavy voiceover toward in-camera, present-tense storytelling.
- Also design and build each project with Louis: CAD, parts ordering, and the bill-of-materials and build-plan step now standard on every video.

Spin Master *Product Design Engineer* — Toronto (remote) | Summer 2024 – Summer 2025

- Designed and prototyped mechanisms for three Hatchimals Bloomables toys, sold at Walmart and Target nationwide.
- Brought onto the Kittyfly toy to simplify its petal-opening mechanism; cut it from 50+ parts and features to under 20.

Crown Jewels *Assistant Editor* — Feature documentary | 2024

Directed by Alex Haraus · created in partnership with REI Co-op, with additional support from Patagonia

- **Co-edited the film's first section**, about a third of the 57-minute runtime, alongside the director.
- Screened nationwide, including REI's flagship store and for lawmakers in Washington, DC.

The RSVP Group *Video Media Manager* — Brunswick, OH | 2020 – 2024

- Ran video content production and publishing for four years: videography, photography, and editing in Adobe Creative Cloud.

Strategic Productions LLC *Media Production Engineer* — Boulder, CO | Summer 2023

- Supported a 700K+ subscriber YouTube channel on set and in the shop; led the design and build of multiple on-camera projects.

Asterbrook Properties Rehab *Home Remodeling Apprentice* — Brunswick, OH | 2017 – 2022

- Renovated distressed homes for sale and rental: design, structural, electrical, and plumbing work alongside owners and contractors.

SELECTED WORK · YOUTUBE.COM/@WEISZ

I Built a Micro Camper for my E-Bike! — 2.2M views
I Built a Fake Electrical Box for Stealth Camping — 588K views
I Built a Snowmobile Camper to Survive Extreme Cold! — 536K views

Plus: Boatmobile engine swap, Jet Longboard for Sickos, Every Way to Make Fire, E-Bike Camper railroad trip, Snowmobile Santa Sleigh.

EDUCATION

Purdue University B.S.E. Multidisciplinary Engineering, Minor in Theatre Design & Production — West Lafayette, IN | 2024

Crazy Monkeys Comedy — Vice President; ran 5–7 improv shows a term for thousands of students: venues, tech, and a large team.

SKILLS

Post-production: Adobe Premiere Pro, After Effects, Photoshop, Lightroom & Creative Cloud; story structure, sound, color
Production: Videography, photography, field and run-and-gun shooting, shop/build coverage
Engineering: CAD (SolidWorks, Fusion 360, Creo, NX), FDM & SLA 3D printing, laser/CNC parts, welding, woodworking
